## Patient Outcomes 2021 Recap

### Patient Comments

*"Megan Carabotta, therapist, kept me on my toes but knew when to give me a rest. Very encouraging and knowledgeable about the exercises she trained me to go home with. There were so many, I wish I could name them all! Excellent staff, great team work!"*

*"I can't say enough about the staff. This is my second time and they come to help quickly (call light) and are all very helpful."*

*"The other two places I have been didn't interview me like this. Those places needed to ask these questions because they had major problems. Here, I didn't encounter one issue. Everyone was so professional and understanding."*

*"I'm going to refer SRH to everyone. If they go somewhere else for rehab, they are out of their mind!"*

*"I have been overly impressed and in awe of your facility. My experience was very eye opening for me. I learned early on that you put into rehab what you want out of it. Therapy is here to push and encourage you. There were days I didn't feel like working, but knew I had to do something toward my progress. Your staff are tolerant, compassionate, hardworking and knowledgeable."*

*"The care here is wonderful. I was kept informed of my progress and when I needed rest during therapy, that was granted."*

## Patient Satisfaction

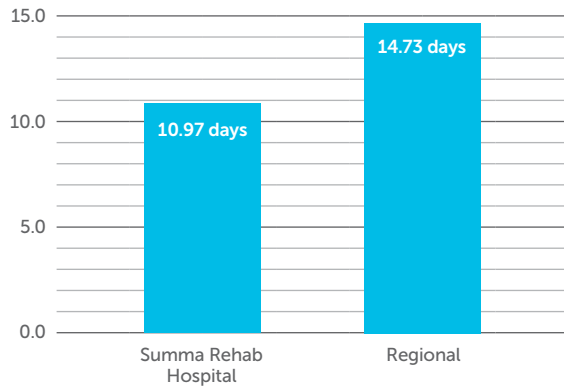

2021 Patient Satisfaction

Patient Satisfaction – the percentage of patients rating a 3, 4 or 5 (good – excellent) at time of discharge

## Average Length of Stay

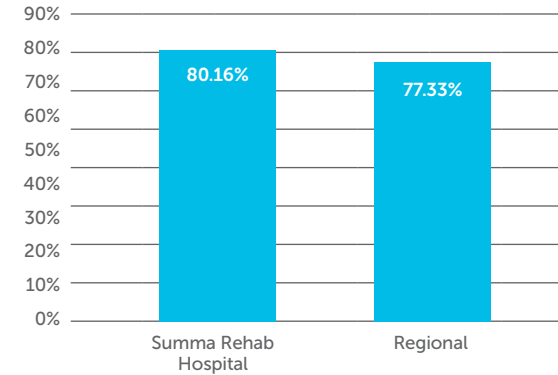

2021 Average Length of Stay

Average Length of Stay (ALOS) – the average number of days patients are treated in the rehabilitation hospital measured from day of admission through discharge

## Discharge to Home

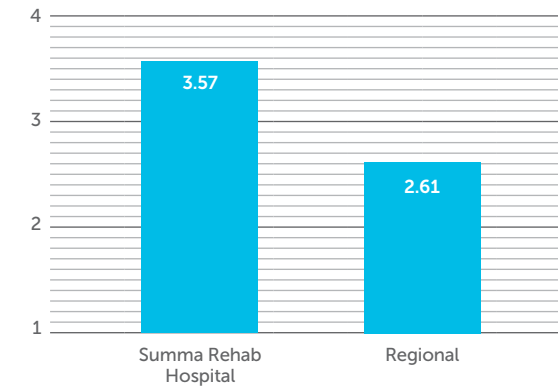

2021 Community Discharge

Discharge to Home – the percentage of patients returning to home or a community setting (group home, assisted living)

## Care Score

2021 Care Score Measure

Care Score – the amount of gain patients have toward functional independence each day

Summa Rehab Hospital has been accredited by both The Joint Commission (TJC) and the Commission on Accreditation of Rehabilitation Facilities (CARF). Summa Rehab Hospital is the only Inpatient Rehab Facility in Summit, Portage and Stark Counties to have all four specialty programs accredited through CARF.

**Those specialties are Brain Injury, Stroke, Spinal cord and Amputee programs.**

Summa Rehab Hospital achieved this distinction by fulfilling its mission of providing the highest quality compassionate care to its patients and contributing to a healthier community
